

SOUTH AFRICA

SUN CITY (2N) & CAPE TOWN (4N)

OVERVIEW

- **CAPE TOWN:**

Perched between the ocean and the mountain, with a national park as its heart, there is nowhere like Cape Town. Cape Town, the "Mother City", is the oldest city in South Africa and has a cultural heritage spanning more than 300 years.

The unique topography of the region makes it easy to orientate oneself as long as you remember that with Table Mountain behind you and Robben Island before you, you are facing north, looking across Table Bay and up the west coast of Africa. It is in Cape Town that the Rainbow Nation really covers the spectrum. Between beautiful Cape Dutch homesteads, traditional dancers with painted faces performing in the streets, the smell of spicy Malay cooking and the taste of a well-made wine, this city will fill your senses.

- **SUN CITY:**

One of Africa's premier vacation destinations, Sun City in South Africa is internationally recognized for its superb resort offering of hotels, attractions and world-class events. From the lavish opulence of The Palace of the Lost City to the casual elegance of the Cascades, the glamour of the annual Nedbank Golf Challenge to the tropical thrills of the Valley of Waves, Sun City delivers plenty to see and do in a beautiful malaria-free landscape. Extensive Water Features, Fountains, Pools, Natural Lakes, and Waterpark Designed by Aquatic Design Group, Inc. in California envelope the resort guest in the African safari experience.

BEST TIME TO VISIT

- South Africa is a year-round destination due to its varying regional climates and wildlife opportunities.
- From around **November to March**, whilst it rains in the rest of southern Africa, the Cape is hot, sunny, dry, and generally perfect for a holiday. Christmas and New Year are lovely in the Cape, although as the result it gets exceedingly busy with South Africans spending their holidays here.
- From around **April to August** it cools down and there's some rain. During these months it can be beautiful and dry one moment, but blustery and wet the next. Rainfall peaks around June and July but the Cape's weather is notoriously changeable; locals say that you can have 'four seasons in one day'. Despite this, the Cape is still pleasant to visit, just as long as you aren't expecting to sunbathe all day.
- By **September and October**, the rain becomes a less common event; the sun comes out more and the temperatures rise again. September is the start of the Cape's 'spring', when vast swathes of the open fynbos bursts into flower in Namaqualand (north of Cape Town).
